Date : 16 March 2016

To the media attention

Another top of range Science Laboratory for rural school in Limpopo

The MEC for Education in Limpopo Mr Ishmael Kgetjepe and the CEO of South African National Parks (SANParks) Mr Fundisile Mketeni will hand over a State-of-Art Science Laboratory to Tlakulani Sec School in Giyani, Mopani District.

The National Parks are mostly located in areas where they are connected to rural communities. These communities are characterized by unemployment, poor infrastructure and it is the duty of the National Parks to establish, build and maintain relationship with these societies. Through their Corporate Social Investment (CSI) programme, SANParks has donated this laboratory for the learners of Tlakula Secondary School.

Media houses are therefore invited to be part of this event which will take place as follows:

Date : Friday, 18 March 2016

Time : 09h00

Venue: Tlakulani Secondary School, Mninginisi Village

The event will start with the briefing session which will be followed by the official opening of the laboratory by the MEC. The MEC will then address the guests before media houses are provided an opportunity to have interviews with the MEC and the CEO.

Together we move education forward
