MEDIA RELEASE

27 January 2019

Fake Social media account not of the Premier

The Office of the Premier of Limpopo wishes to warn all those who have accepted friendship from a Facebook account with a background picture of the ANC and a portrait picture of the Premier with the President that they have been duped.

The account shows about 218 friends, mostly young kids and may have been operating between 2018 and now.

Please ignore any request for money or any other favours from the “so called Chupu Mathabatha” person. Anyone who may have been coerced into depositing moneys or any other favours should immediately report such activities to the relevant law enforcement agencies with immediate effect.

The fake account has since been reported to the Facebook Company.
