11 SCHOOLS RECEIVE SCHOOL UNIFORM IN LULEKANI

A total of 32 children will now go to school clad in proper school uniform following the donation by the Department of Social Development in Limpopo today.

The Department of Social Development continued with its provincial winter drive and donated school uniforms to 11 schools in the Mopani district. Many of the learners who received school uniforms were either attending school bare feet and or with ragged attire. The Department believes that this gesture will provide much needed relief and restore dignity to the learners.

Addressing the event on behalf of MEC Nandi Ndalane, Councilor Thomas Nkuna said: "Government will strive to use its resources to support the education of the poor learners with among others school uniforms. Proper school uniform will help maintain learner confidence a key ingredient to better academic performance."

The Department will continue with this programme in the rest of the districts in the province.
