### DIKGEREKGERE WEDNESDAY DRIVE FOCUS ON TOURISM SUPPORT

The festive season is upon us and this is always accompanied by people using the province's roads infrastructure network to visit various tourism destinations and other places of interest.

It is for this reason that the Limpopo MEC for the Department of Public Works Roads and Infrastructure, Ernest Rachoene will continue to ensure that provincial gravel roads that often lead to these holiday destinations are drivable through the implementation of the #DikgerekgereWednesdays programme focusing on tourism support.

The departmental yellow fleet will be in the Modimolle-Mookgopong local municipality under the Waterberg District working on a strategic road of a 21km stretch of road D973 connecting Vaalwater and Sandrift, as well as passing through several game farms in the area.

The work on the road which includes blading, regravelling and debushing of road reserves will be conducted as follows:

Date: 28 November 2024

Venue: Road D973, next to Shekina Lion and game lodge.

Time: 11:00
